1. The following is an examiner's statement of reasons for allowance: Applicant's terminal disclaimer remove the obviousness double patenting rejection; the cancellation of claims leaves the narrowest claim remaining with the second layer most different from that for which Park et al or Robertson plasma pretreat, especially considering applicants arguments/evidence concerning Laboda et al.

Also of interest are applicant's copending cases 6,635,583 B2; 09/165,248; 09/270,039; & 10/684,079, which while depositing analogous sequences of material, do not use any plasma treatment between layers, let alone the claimed inert gas one to produce the specific claimed/disclosed effects. Pokharna et al to the same assignee, which is not prior art, discloses a plasma densification process for (Si--C), which may use He or Ar, but doesn't claim this

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
